1 CPE credits are available for completion of this program.

This session is a macro level overview of Network Security & Privacy Liability. The panelists will be speaking on the breach preparedness and incident response, legal and regulatory environment and how does an underwriter view a risk.

The goal of this session is to provide an introductory understanding of network and privacy risk exposures and how they can impact risk retention groups and other vendor partners attending the conference.

After completing this course you will be able to:

- Explain the risk exposures relating to network and privacy risk and how these exposures affect their organizations
- Identify network security & privacy liability
- Describe the current regulatory environment and how underwriters view risks in specific industry sectors.

Program level: Basic
